SKILLS

- I am proficient in C#, C++, Java, Kotlin, and SQL, with experience in Android development, database management, and building scalable applications. My expertise includes object-oriented programming, algorithms, data structures, and clean architecture, which I have applied in mobile and distributed systems. I have worked extensively with Android Studio, Visual Studio, and IntelliJ IDEA, integrating REST APIs, Firebase, and automated testing. My background covers web development, IoT programming, mobile game development with .NET MAUI, Arduino programming and UI/UX design, with experience in both front-end and back-end technologies. In my free time I like to draw, edit pictures as a hobby and give my artistic self some creativity time.
